Course 1 Remnants of the Noblemen

It is the route to discover Unamgok Valley, the first bend of Dosan Valley. In the first course, there are remnants of gentlemen who existed, maintaining the honorable academic spirit. Journeying through the Seonsong waterway to the Korean Culture Theme Park, our forebears lead us forward and illuminate our path.

Course 2 Traces of a Great Sage

The second course is the journey where a teacher and a student encounter one another. It's a path that reflected Toegye's existence, and there is Wonchon Village, where Toegye's descendants lived a modest yet honorable life.

Course 3 The Birthplace of a Remarkable Poet

Yi Yuk-sa, one of Korea's most famous poets was born in Wonchon Village. While walking, you can spot green grape vineyards all around, and if you ascend the mountain facing Toegye Yi Hwang's tomb and reach the submit, you might enjoy the fantastic scenery.

Course 4 The Picturesque Spectacle that Toegye Walked

Eulmijae is truly a place that boasts the best scenery in Andong. Those who have ever been here consider Gosanjeong Pavilion and Nongam Head House to be the finest pavilion and head house in the country.

Course 5 Sanctuary of the King Gongmin's Mother

The water flowing from Mt. Cheongryang could not cross the mountain and swung around Wangmosanseong Fortress, while the mountain could not invade the water, creating a picturesque landscape of Naesalmi and Baekwunji. You can also see Kalseondae near Mt. Cheongryang, where Lee Yuksa found inspiration to write the poetry titled 'Peak'.

Course 6 The Origin of Andong's Academy

Wolcheonseodang Village School, where Jo Mok, a great disciple of the Toegye School, was born, and the Beonnam Historic House of the Jinseong Clan are located across the river. In Bupo, there are Utak's (ancient scholar) Yeokdongsowon and Burawon Traditional Post Station, which has stood for a thousand years.

Course 7 From the Korean Studies Institute to Dosan Hot Spring

The Korean Studies Institute acts as the central hub for gathering and preserving woodblocks while distributing Andong spirits beyond its borders. Upon reaching Dosan, where the main house of Nosongjeong is situated, you'll find to the right Sugokam Hermitage, originally established by Toegye, the head house of Ongye Lee Hae, and the commemorative stone of Songjae Lee Woo, while on the opposite side lies Dosan Hot Spring.

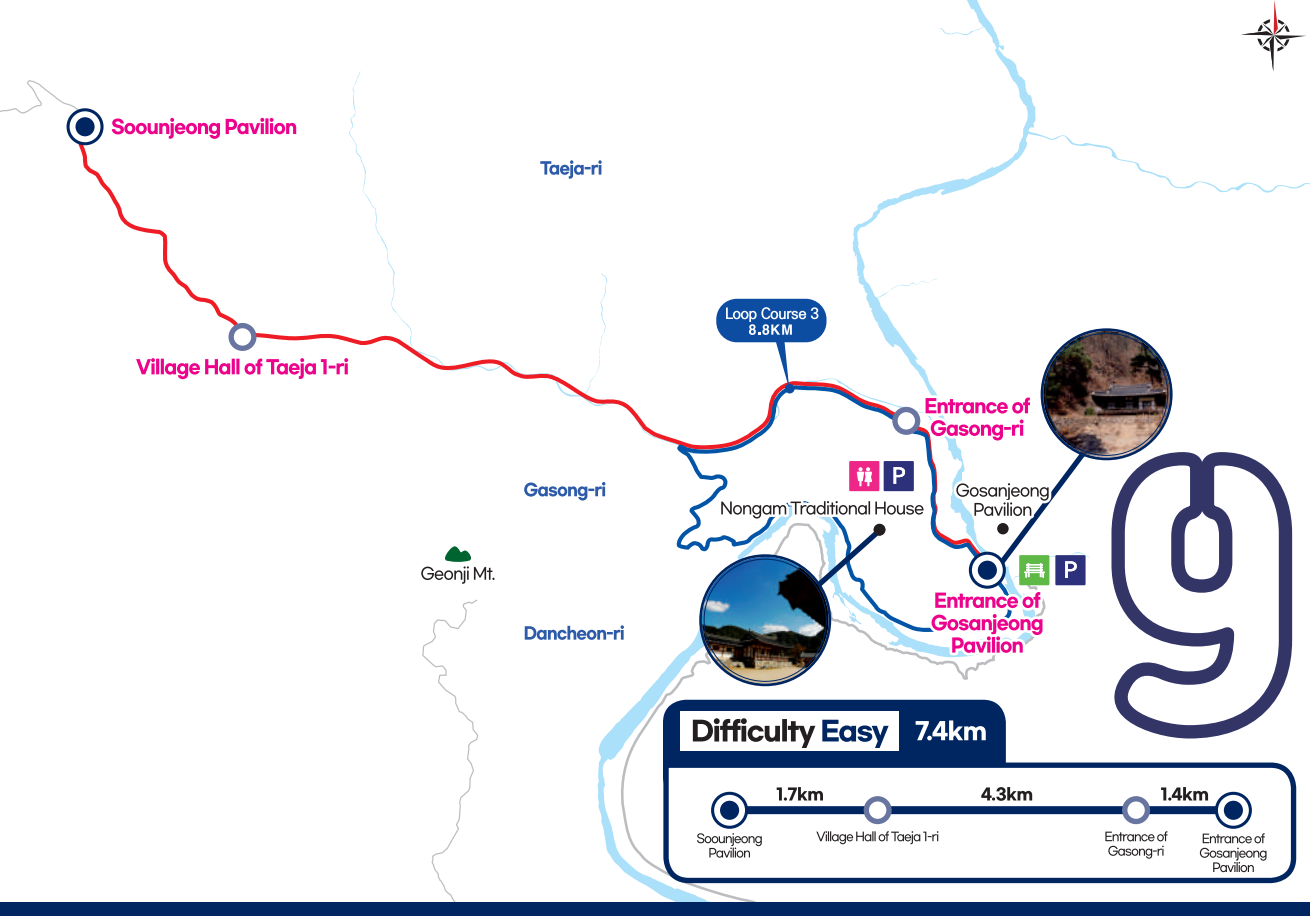

Course 8 A Quest to Discover the Dream of Prince Maeui

Evidence exists of Kim Il, the crown prince, commanding his troops to restore Silla until its downfall at the end, when Silla was ultimately defeated. There are remnants that resonate with the emotions of those who explore history: Shinnam-ri and Silla-jae, referring to the southern part of Silla; Taesaji, Gubbu, and Lee-soo; and Ma-ei-dae, which Prince Maeui ascended daily to view the territory of devastated Silla.

Course 9 The Location Where Toegye's Students Studied Seodo

The students of Toegye studied Seodo by frequently traveling to Souonjeong Pavilion, and they dedicated themselves to learning Confucianism through writing. The title of the old Seonsong public office located in Dosan Seobu-ri is inscribed by Lee Sook-nyang, while the tombstone of Toegye features the calligraphy of Geumbo; both are celebrated for being unique in history, as it is rare for students taught by the same instructor to become skilled calligraphers.
